Monaco

March 13th 2021

100% Virtual Conference

La Fondation pour l'Étude du Système Nerveux central et périphérique (FESN), with the support of Magnolia, has the pleasure and privilege to introduce to the audience an exceptional set of great medical brain specialists who will present their work on the nervous system function and diseases. They will also discuss with the audience in a debate led by Ms. Cattan, Head of the Health Section of Nice Matin and Var Matin.

New

The Conference will be broadcasted live on the Conference website where you will be able to ask questions to the members of the FESN's Scientific Council as well as to the international experts of the different angles of the memory field

The Topics

MEMORY'S DIMENSIONS
